Recommended campaigns: Post-sale

Target audience: Getting started-oriented email campaigns

2. How to add a domain

Subject line:
Add a domain to your website
Final step - add a domain!

Hi (First Name),
Once you are happy with your website and feel ready to publish, you need a domain to build trust around the website and your brand. Already have a domain? Reach out to us so we can help you incorporate it.

Don't have a domain yet? We can help you get started. See our guide (link to guide) on how to set up a domain. Of course, you are always welcome to contact us!

Best regards,
(Name of agency)
