

# SYNC E-COMMERCE AND ACCOUNTING DATA FOR EASY TRANSACTION MANAGEMENT

43% of SMBs consider convenience when deciding what technologies to purchase

60% of SMBs want to replace existing accounting software with more advanced solutions

Mobile e-commerce transactions are expected to grow 70% in 2017

Mono Solutions and Sage offer a complete integration that enables transactions from responsive e-commerce websites built on the Mono Platform to instantaneously populate general ledger and related modules in the Sage One accounting solution.

Managing and transferring all the transactions from an online shop to an accounting system can be time consuming for a small business owner. The Mono-Sage integration simplifies the process and ensures that all data is automatically populated in the accounting system. This helps small and medium-sized businesses (SMBs) save valuable time on managing transaction data, as well as ensure that the data is transferred accurately.

Sage is the market leader for integrated accounting, payroll and payment systems, supporting the ambition of the world's entrepreneurs. They reinvent and simplify business accounting through brilliant technology. Sage One is online accounting software designed to keep SMBs business on track.

## INTEGRATION BENEFITS

- The integration between Mono and Sage One allows transactions coming from e-commerce websites built on the Mono Platform to instantaneously populate general ledger and related modules in Sage One
- This integration also builds on the Sage Payment Solutions gateway integration and provides further value to SMBs and Mono resellers alike
- SMBs now can save time on bookkeeping and have a lower risk of making errors.

## WHAT CAN WE SYNC?

The data from Mono E-commerce that is synchronized to Sage One invoices includes:

- Placement of orders
- Credited orders
- Created products
- Updates or edits to products
- Line items of what was purchased
- Transaction amounts
- Transaction date

## HOW TO GET STARTED

All SMB service providers who are partners of both Mono and Sage can use the integrated services.
