MONO & YEXT

LEVERAGE THE POWER OF DATA

Fast and easy data synchronization between platforms

MONO

CONSISTENCY IS KEY

Small businesses rely on correct and consistent business data across the web to ensure smooth business operations. The Mono and Yext integration makes it nearly effortless.

DATA-DRIVEN SITE CREATION

Create responsive, SEO-friendly and professional websites in seconds by using data from Yext to generate a Mono One-Click Site. The website will be auto-filled with relevant and up-to-date SMB content for the perfect entry-level website for SMBs.

ALWAYS STAY UP-TO-DATE

With a two-way data sync between Mono and Yext PowerListings Networks, SMBs can make updates on one platform and rest assured that their core business data stays up-to-date and consistent across the web.

WEBSITES MATTER

Data-rich websites help SMBs ensure a strong online presence with readily available business information and futureproofs their digital investment for technologies, such as artificial intelligence and voice search.

EMPOWER SMBS

Together, Mono and Yext give digital service providers the unique position to ensure SMB data stays true and consistent over time, and empowers SMBs with trust and authority within the digital landscape.
