MONO ONE-CLICK SITES

DATA-DRIVEN PRESENCE

SMBs without a mobile-optimized website are at a huge disadvantage.
One-Click Sites provide an amazing opportunity to help them compete
across the digital landscape at a very low cost.

USE YOUR DATA

One-Click Sites make data valuable
by using existing structured data from
your CRM, online directories, local
listings management and/or social
media, to efficiently build the perfect
entry-level website.

EFFORTLESS TO MANAGE

With website design auto-generated
and content centrally managed,
One-Click Sites are easy to administer
and can be produced in large volumes.
This makes it easy for service providers
to produce website at scale and still
yield high margins.

QUALITY AUTOMATION

Combine structured data with
intelligent Mono design templates
to create websites that automatically
configure based on the data available.
With built-in Microdata tagging,
One-Click Sites enrich SMB placement
in search results.

GROW WITH MONO

As the SMBs' digital needs grow, they
don't need to worry about switching
platform. One-Click Sites can easily
be upgraded to more advanced
offerings, giving service providers
a natural upgrade path and increasing
customer retention.
